Aluminum PDU, rackmountable, 12x safety outlet 2x 16A, 250VAC 50/60Hz, overload protection

The DIGITUS® power strips are the perfect solution for your network or server cabinet. In terms of power distribution, the PDU meets the requirements of many applications in IT, network technology, laboratories and the home. The power strip can be mounted vertically in the cabinet. The PDU has 2 separate supply lines. An integrated overload protection per power feed protects the connected consumers from overload. Depending on the type of cabinet, it is possible to mount the socket strip with the taps pointing to the right or left.
